Advisories

Candles

The majority of the time candles are moved without incident. However, long exposure to higher temperatures in transit and/or storage could cause candles to melt or become misshaped. Please consider this when packing and evaluating your items for transit and/or storage.

Personal Data Storage Devices

It is important for your personal security that all data storage devices remain within your possession (not packed away) during the entirety of your relocation to reduce the risk of theft. This includes the Amazon Firestick, USBs, deactivated cell phones, hard drives and any other devices that might contain sensitive personal information.

Hoverboards

We are not authorized to transport self-balancing scooters, popularly called Hoverboards, without the removal of the lithium-ion batteries. It is the owner's responsibility to remove the batteries. If the batteries are not or cannot be removed prior to move day, we will not be able to transport the device.
